<b>Details of discussions:</b>	<ol style="list-style-type: none"><li>1. Michelle Kelly introduced the 5P Approach to Behaviour which is being used at Hillside.</li><li>2. The 5P Approach provides a clear, structured and practical framework used by professionals, parents and organisations to meet an individual's needs and to understand prevent and manage behaviour change.  The 5P Approach adopts a preventative and positive approach to intervention. Although the primary focus was (and continues to be) individuals with autism spectrum disorder or special educational needs &amp; disability, the 5P Approach's flexible and personalised framework can be used within any organisation and with any individual whatever their needs.  Since its development, the 5P Approach is now used within many schools, care homes and organisations with individuals, within classes and groups or as a basis for a whole school or organisation approach to intervention for their particular cohort. The 5P Approach is also successfully used within the home setting.</li><li>3. Parents were able to look at the Intervention hierarchy (Behaviour Management Plan) used in school.</li></ol>

	<p>4. The following opportunities to be involved in school life were highlighted:-</p> <p>Family Forum - parents get together in the school day, we usually have updates and invited speakers, with time also for parents to chat over a drink and biscuits sharing their skills and experiences.</p> <p>Headteacher Surgeries - come talk to Michelle.</p> <p>Class Assemblies - you are most welcome to attend.
